

Building survey and documentation of buildings and spaces in need of conversion rebuilding renovation and change of ownership, marketing etc

Document set and works needed prior to renovation, making sellers, banks, builders, authorities, owners etc to know what, how, when matters need to be done, this then reducing mistakes and lengthy discussions and minimizing the risk that all is left for 20 years or more in unfinished state...

1. Drawings and layout of existing buildings and land
2. Photos and video of building
3. Cost estimates from local suppliers of building materials and works
4. Proposal of layout
5. Water and electricity supply
6. Electricity lines locations
7. Plumbing and waste water lines location
8. Translations and meanings of the original document set
9. List of suppliers of services and materials
12. Property and sales suggestions, websites in different country's
13. List of tax authorities and authorities websites
14. Assistance with marketing to sell property or business
15. Creation of website for sales marketing and other documentation

The whole document set is online in "secure" mode if needed with login facilities.

Prices are depending on object location and time estimated to do the work Example:

A property in need total renovation 150 sqm 380 sqm garden 500 Euro 30% in advance a 150 euro ex tax.

Taxes **paid** at local tax office. Receipts ONLINE

Njord Online JPK Jan P Kajander Communication one way Email: webmaster@japan1.freewebspace.com

Communication second way

<http://www.brooksyounce.com/> software: p2p super cipher messenger.

Third way for contact i bit slow but shall work...

Create www.freewebspace.com a freewebspace or ANY free webspace server with your message displayed open **add your keywords** "jankajander date 20060231 time 16:31:11 subject:whateveryouwant" use alltheweb and google and other search engines to get the message through the blocking and filters..

That could then be found in search engines and there is **no need** to **TRANSFER** information bypassing blocking equipments and its **open** for everyone to see.
